Subject: West Lake F&T Workplan

Dan-

I am sending back to John edits for our second version of the workplan. I will be out of the office next week for the NRRB meeting in Boston. I am asking John to forward the plan along to you after he reviews the edits and if he has any additional revisions. Unfortunately, because of other pressing GW and VI tasks, I was not able to review the GW monitoring package with the 12/13 deadline.

Thanks-Dave

Dave Bartenfelder, Ph.D.
